BENEFACTORS OF NORWICH

Point Made at Meeting of Committee on Celebration.

GRANDE DEGREE WORK
BROUGHT MANY VISITORS

Norwich grange, No. 172, Patrons of Husbandry, held its regular meeting Wednesday evening in Pythian hall, in which the time was devoted to the conferring of the third and fourth degrees upon a class of eighteen. REDEEMED OLD BILL
OF THAMES BANK

Thames National Sent \$5 to Virginia Man—Bought Food for Union Soldier.

A relic of the past came to the Thames National bank on Wednesday when a letter was received from a man in Virginia, who enclosed a five dollar bill of the Thames bank, which went into circulation in 1840.

The writer asked to have the bill redeemed, although the limit of redemption for the bills of the Thames bank had long since expired. The bank subsequently no obligation on the Thames National bank to honor the bill, the bank officials obligingly replied to the writer of the letter by sending the face value of the bill to the man who presented it.

Pencilled on the bank of the bill were words that added a peculiar interest to it. Some hand had written there: "Red. from a Union soldier in part payment for food."

The bill had apparently lain folded away in a book for many years and had probably only recently been discovered. It was dated May 17, 1840 and bore the signatures of "Edw. Whiting, pres." and "L. Brewer, cashr."

One of the changes made from the publicity plans of last year was to have the posters and circulars announcing the week, May 24 to May 30, printed in three or four languages besides English. This plan will be followed out and the posters and circulars gotten out and distributed as soon as possible.

A POINTER TO
MERCHANTS

A certain store which is being re-established by new owners has specialized on famous trademarked lines in many of its departments.

The figures of the store-sales show that the departments which have been able to secure such goods and push them are growing far ahead of those which have no famous brands to help them.

Responses to the advertising of this store evidence the fact that the public is more eager for well known, trade-marked goods than it is for articles whose names mean nothing.

In several instances there is direct co-operative advertising in the local newspapers between the manufacturer and the store—and this has brought splendid results in dollars and cents.

REDUCE PRICE OF CITY GAS

Gas and Electric Commissioners Will Make Price \$1.15 From July 1st—Many Petitioners for New Gas Mains—New Gas Holder Completed at \$2,744 Less Than Appropriation.

At a meeting of the city gas and electric commission at the office in the Alice building on Wednesday evening, it was decided to make a reduction in the price of gas on July 1st. At that time the present price of 1.35 per thousand will be reduced to \$1.15 and the bills of August first will be made out at the new rate. This is the second reduction in the price of gas that has been made since the present commission has been in office, and will of course be welcome news to users of that system of lighting.

The commissioners have in view also a further reduction if they find that conditions warrant later.

At the present time the department is in receipt of many petitions for laying gas mains. They will be taken up as soon as possible and work will start very soon now.

The commission is able to report a very pleasing condition in regard to the new 500,000 cubic foot gas container which has been put up at the world market North Main street and for which the sum of \$40,000 was appropriated. It has cost to date \$33,456, and there is another payment of \$5,800 to be made. When finally accepted and paid for it will have cost \$39,256, which is \$2,744 less than was estimated and appropriated for it.

At the same time the new gas container is rendering markedly satisfactory service. For more than a week now it has been the city's supply for gas, and Superintendent S. J. Schoen on Wednesday that the day it was put into service was the first day in months that there were no trouble calls. With the old smaller containers working there were trouble calls all the time and now the department employees find time to do something else than answer these calls for help.

Beautiful, Soft, Fluffy Hair An Aid to Beauty

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters. If your hair is not fluffy, soft and lustrous; is falling out, streaked, faded, brittle, or full of dandruff, and if the scalp itches, do not think it must always be that way. For pretty hair is only a matter of care and proper nourishment of the hair roots. Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful.

Parian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes dandruff with one application and quickly stops itching head and falling hair. It is the ideal hair tonic and scalp treatment for men, women and children—contains nothing injurious and is delicately perfumed.

The Lee & Osgood Co., or any drug or toilet counter can supply you with Parian Sage—it is inexpensive. You cannot be disappointed with the delightful and helpful hair tonic for the hair. A few days' use will give the hair the beauty and charm of youth.

Railroad Avoids Paying For Lumber.
Hartford, Conn., May 13.—Many members of the Lumber Manufacturers' association of Southern New England, met here today and some spoke disparagingly of the alleged efforts of the New York, New Haven and Hartford railroad to avoid payment for lumber ordered. George L. Ingraham of Norwich said he knew of a business associate who had \$5,000 feet of ties rotting near New Haven. Others spoke along similar lines. It was said that the company ordered the ties, cut in certain dimensions and then delayed shipping them late that hundreds of the ties rotted.

After a brief wedding tour of the west they will reside in Putnam.

Circus Had Chilly Day.
It was a chilly day for the circus attendants in Norwich on Wednesday and those that were shivered under the big tent. Possibly that may account for a majority of those who attended reporting that it was hardly worth the 50 cents that some paid to get in, while others reported that tickets were bought for 25 and 35 cents.

SIMPLE HAIR STYLES

THIS YEAR

The "English Bun," with its accompanying dozen of simple styles, which hark back to our own sunbonnet days, is here, we trust, to spend a long time. Somewhat woman's hair never looks so attractive as when it is dressed in the simplest manner, providing it is one of the styles which suit the face of the wearer. However, the simple methods leave less opportunity for artifice and make greater care necessary in keeping the hair clean and lustrous. Canthrox is a shampoo which offers a quick, easy and economical way to cleanse the scalp. It will restore to the hair its soft, rich, glossy and natural color. You make it by dissolving a teaspoonful canthrox, which every drug store carries, in a cup of hot water, then pour slowly on the head as you rub briskly. This makes a thick, soothing lather that allays irritation, makes the head feel good and helps the scalp in a healthy condition, which assures beautiful, heavy hair.
